PRODUCT DESCRIPTION

**B-PAINT** is a blend of selected asphalts and petroleum-based solvents conforming to the requirements of a damp proofing/waterproofing primer with a CGSB-6 specification.

**B-PAINT** is a penetrating primer formulated for brush or spray applications.

ENVIRONMENT CANADA – CODE OF PRACTICE

**B-PAINT** does not meet the Recommended Code of Practice for the Reduction of Volatile Organic Compound Emissions for Cutback Asphalts. Please contact your local **MCA** Marketing representative for an **MCA** low-VOC-emitting product alternative.

GENERAL PRODUCT FEATURES

- Dries very quickly
- Finished surface is non-tacky and non-tracking.
- Cost-effective preventive maintenance tool to help extend the life of your masonry or concrete structure

RECOMMENDED USE

**B-PAINT** has unique properties, acting as a surface conditioner to enhance the bond between substrates and waterproofing membranes or other asphaltic coatings. **B-PAINT** is used as a damp proofing/waterproofing coating to prevent the migration of moisture through masonry or concrete structures.

APPLICATION GUIDELINES

- All surfaces must be clean, dry, and free of deleterious material. Surfaces should be relatively smooth and free of irregularities.
- Treat oil spots prior to application of **B-PAINT** to ensure proper adhesion.
- Apply at roughly 21°C (70°F) because the viscosity of the product increases at lower temperatures.
- Allow up to 24 hours to cure. Curing time may have to be extended if the application environment is not optimal (i.e. high humidity, lower temperatures, etc).
- Do not dilute **B-PAINT** with cutter.
- Product is flammable. Eliminate sources of ignition and static discharge. Use in well-ventilated areas. Contains flammable solvents.
- Harmful if swallowed
- Consult Safety Data Sheet and respect all safety and environmental requirements.

COVERAGE

**B-PAINT** is applied at 1.6 to 2.0 L/m² (0.35 to 0.44 gal/yd²) depending on surface quality and temperature. Avoid over-application.

CLEANUP

Use mineral spirits to clean.

PACKAGING, STORAGE AND HANDLING

**B-PAINT** is available in the following packaging:

- 20 L (5 gal) pail
- 205 L (54 gal) drum
- Bulk tanker

STORAGE

- Store in accordance with local regulations and all requirements for flammable liquids.
- Store **B-PAINT** in its original container protected from direct sunlight in a dry, cool, and well-ventilated area away from incompatible materials.
- Keep container tightly closed and sealed until ready for use.
- Unsealed containers must be carefully resealed and kept upright to prevent leakage.
- Consult the **B-PAINT** SDS and respect all requirements.
B-PAINT

ASPHALT CUTBACK FOR WATERPROOFING AND DAMPROOFING

CERTIFICATION OF QUALITY

McAsphalt Industries Limited is accredited to the quality management standard ISO 9001, the environmental management standard ISO 14001, and the occupational health and safety standard ISO 45001.

Each lot of B-PAINT is produced using the strictest quality, safety, and environmental guidelines. Each production lot is tested to ensure it meets or exceeds all performance requirements and is delivered with a Certificate of Analysis.

PRODUCT SUPPORT

With the MCA Advantage, you get a partner and advisor who will consult with you about designs, specifications, technical services, processes, and material selection. By developing innovative, custom-designed products that offer additional benefits such as peak performance in unique conditions, improved field performance, and greater environmental and health benefits, the MCA Advantage provides significant long-term cost savings, resulting in lower total cost of ownership.
